

Pop-up Lion Instruction

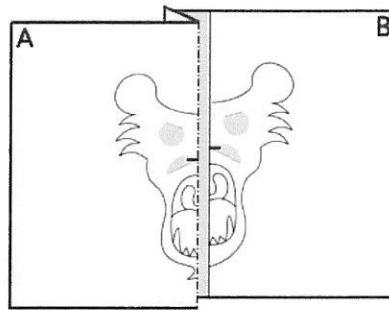

1. Fold A along the broken line, creating a crease on back of A. You don't have to fold B.

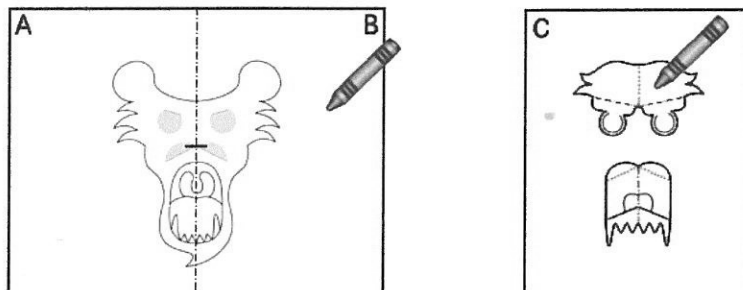

2. Put some glue on the shaded area on either A, B, or both.

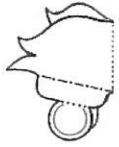

3. Attach A and B, matching the guide lines.

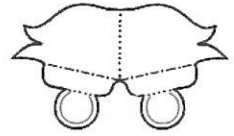

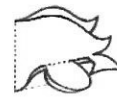

4. Decorate the lion, including the forehead and the mouth. After decorating, cut the shapes out.

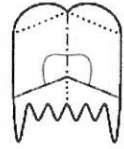

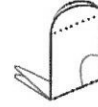

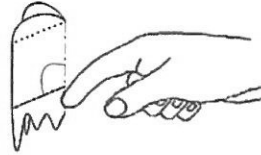

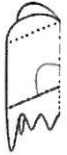

5.

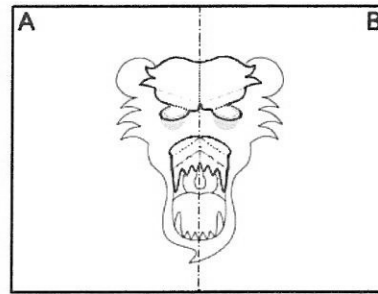

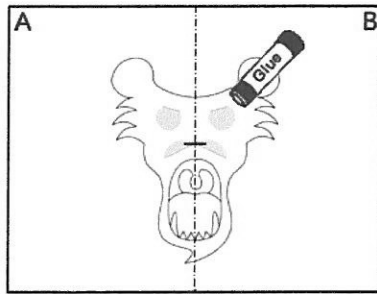

Flip and fold in the other direction, and unfold the forehead.

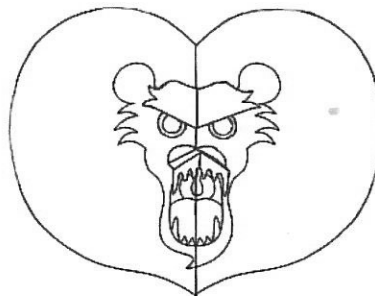

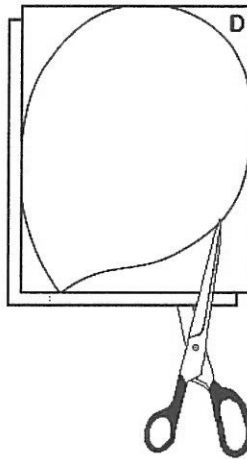

6. Repeat the same process on the mouth. After making all the creases, fold the mouth in half, the drawn side up, and push the teeth in. Unfold the mouth.

7. Put some glue on the shaded areas of the lion's face. Paste the forehead and the mouth.

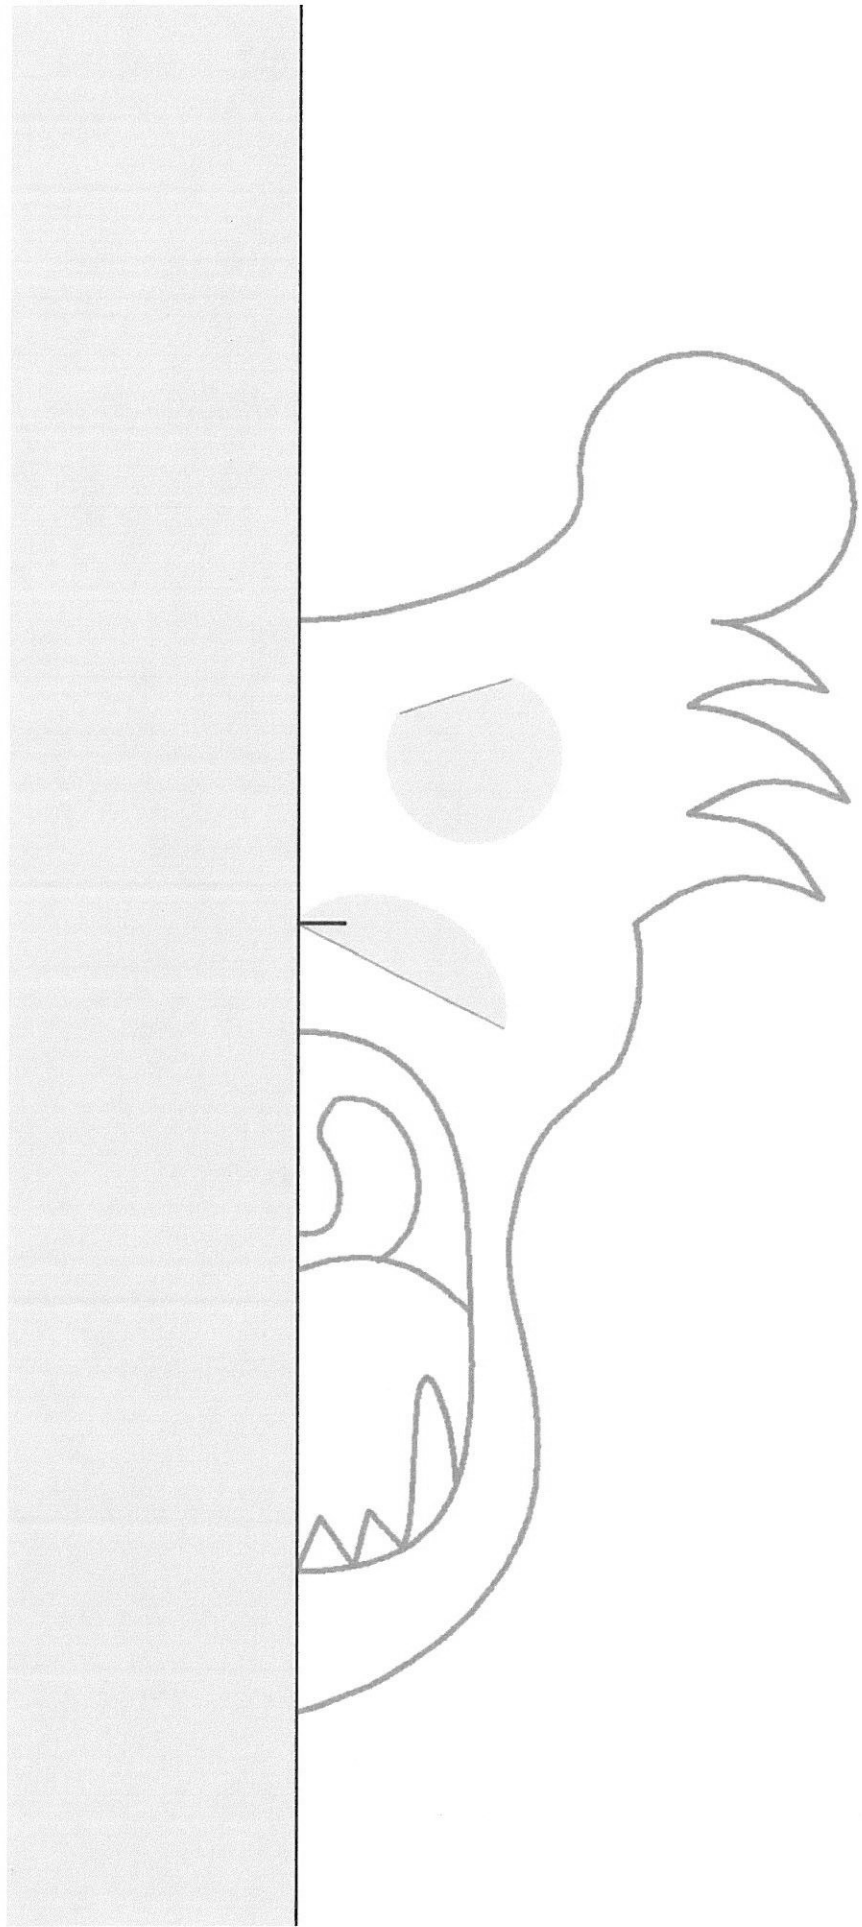

8. Place D on top of the closed pop-up, matching corner to corner. Cut the shape out.
